Approved and order thereon ... ... Do. do. No. 3, p. 197

From the Administrator-General of the French Establishments.— After reviewing the circumstances which led to the appointment of the Mahé commission, observing that the question to be determined by the English and French Commissioners was one solely of *fact* and not of right; and that he will not therefore discuss the answer of the English Commissioners in which they rely on three points quite foreign to the question of *fact.* Stating that the English Commissioners in their report, dated 10th July last, content themselves with denying the authenticity of some of the documents on which the French rely, doubting or giving a false interpretation to others; and finally rejecting them all as useless and affording no light on the subject, adverting to the nature of the documents produced by the French Commissioners and asserting that they prove incontestably that certain territories did not cease to belong to France from 1799 till the capture. Observing that the right of France to the village of Pandaquel has been recognized by the Company's Government who have divided with her the proceeds of the ferries there. Remarking that the Coringot Nair Rajah was not an ally but a vassal and tributary of France; that the country was under the French flag, paid tribute, furnished troops when required to establish the right of sovereignty; begging that orders may be sent to the English Commissioners, to enquire purely and simply whether France was in possession of the territory claimed on the 1st January 1792 in the presence of the 4 Commissioners who will examine the inhabitants on the subject and stating that if Government should not approve of his suggestions it will be necessary to make a further reference to Europe which will considerably retard the decision of a question of *fact* which it has been agreed should be settled on the spot. Cons., 7th Oct., No. 3, p. 213

From ditto—. Stating that the report of the British Commissioners has not been received and that on its receipt the measure that may be deemed necessary with a view to the final settlement of the question in discussion shall be furnished to His Excellency. Cons., 7th Oct., No. 4, p. 221
